

CONFIDENCE IN PURCHASING AT A DISTANCE.

The following extract, from a letter to this establishment, is an example of many of similar character received from all parts of the Dominion. It would not be brought to notice were it not, that by the complete confidence placed in this firm, the purchaser residing in a locality where many jewellery stores were situated, placed a valuable order for an article he had never seen, depending entirely upon the good faith of the firm and the reliability of its statements:

"As wired you to-day I have decided to order the necklace. Enclosed please find bank draft for \$4500.00. It is hardly necessary for me to state that I have a great deal of confidence in your integrity, and rely on your statements as regards the value of my purchase."...

AN INTERESTING COMPARISON IN DIAMOND BUYING.

The following is an extract from a letter written by a New York customer, who, having purchased a diamond brooch in Montreal, wished to satisfy herself that our statements as to the comparative values between New York and Montreal prices were correct:

NEW YORK, N.Y.

"I procured from the most important diamond house here a price for supplying a pin with stones of the same weight and quality as furnished by you, to satisfy myseif that your statements as regards the comparative prices were much in your favour. Their quotation for the same grade of stones was \$385.00, exactly as you predicted, by which I saved \$110.00 by the transaction. This fact I regard as truly remarkable. I do not have to tell you I am thoroughly satisfied with my selection."...

MONTREAL

HENRY BIRKS & SONS

350-352 MAIN STREET, WINNIPEG, Man. Western Mail-Order Dept.

PHILLIPS SQUARE, MONTREAL 57-59 SPARKS STREET, OTTAWA, Ont.

HE purpose of this book is to display articles in Jewellery, Sterling Silver, Silverplate, Cut-Glass and Novelties of the highest quality and most attractive design. It will be found very helpful throughout the year when selecting suitable gifts for anniversaries and other occasions. From all parts of Europe are collected the season's new artistic designs in Jewellery and Silver, by a member of the firm, to be placed on sale at the different establishments of this firm and to reach their customers through the mails in a distribution of their trade extending throughout the American Continent.

. . QUALITY . .

While many inexpensive articles are illustrated in this catalogue, there is but one standard of quality throughout and that is the highest.

The minimum quality of gold in all jewellery manufactured by this firm is 14-carat, all diamond settings being 18-carat. "Solid Gold" which is the trade term for gold of 10-carat and under is not sold by this firm. There is in fact a movement on foot to have the Government prohibit the stamping of this indefinite and therefore misleading term. All silverware is sterling $\frac{9.25}{1.000}$ fine.

BIRKS' DIAMONDS

The great majority of diamond buyers when purchasing depend largely upon the experience and integrity of the firm with whom they are dealing. Birks' Diamonds are of the very highest standard of quality and cutting. Seventy-five per cent. of all first-water diamonds sold directly or indirectly on the American Continent are from the cutting shops of the most noted of all Amsterdam diamond cutters. By their extensive cash purchases, Henry Birks & Sons have exclusive control of the Canadian sales of this diamond-cutting establishment.

HENRY BIRKS & SONS, WINNIPEG

Western Mail-Order Department

The extensive demand in the West for "Birks' Quality" in all the attractive forms of jewellery and silver has at once placed this establishment, which is under the able management of Mr. C. C. Hannan, amongst the foremost of its kind on the Continent. By the establishment of an extensive Mail-Order Department at Winnipeg our Western customers procure the prompt service and attention to details, the same quality of goods at the same prices as in the East, with the added convenience in the saving of time in the delivery of orders.

HENRY BIRKS & SONS, OTTAWA

The establishment of Henry Birks & Sons, Ottawa, which since its opening day has grown and expanded to its present magnitude, is under the direct management of Mr. C. A. Olmsted. The courteous attention to customers, together with the modern business methods of this Ottawa establishment, are what have helped to develop a business in volume much beyond the expectations of the firm.

FINE GEM RINGS.

High quality has always been our chief aim in the matter of diamonds, and we claim that our regular "first-water" stones, to which grade all those catalogued here belong, are of higher quality than those regularly carried in stock by any other house in Canada.

All Diamond Settings are solid recaral gold, made by hand. A card for measuring size of finger will be found at back of book.

A FEW SIMPLE SUGGESTIONS.

- HOW TO ORDER.—Fill out the order form to be found at back of catalogue, simply stating page, number, name and price of article. Orders written on our order forms aid in the quick despatch of orders, especially during the Christmas season. All correspondence not relating to the order and all requests for information, should be written on a separate sheet.
- MONEY MAY BE SENT SAFELY by express order, registered letter, postoffice order, Canadian postal notes or marked cheque. All cheques must be payable at par in Montreal.
- SELECTIONS ON APPROVAL.—We willingly send goods on approval, requiring merely a Montreal, Winnipeg or bank reference, from those who are unknown to the firm.
- WE ASSUME ALL RISK ON ORDERS.—Should any article fail to please, we willingly refund the purchase price in full upon its return within one fortnight. We of course cannot exchange goods made to
- SPECIAL NOTICE.—In many cases, time and expense may be saved by sending us the address and any cards you wish enclosed, and we will forward the articles, prepaid, to the parties for whom they are intended. Such orders will receive our most careful and prompt attention.

order or engraved, nor refund money for them.

- WEDDING GIFTS FOR DELIVERY IN THE UNITED STATES.—We will, upon receipt of request, send a list of catalogue articles which we can duplicate through our United States agents free of duty and prepaid to any express office in the United States.
- CASH PURCHASES.—The prices in this catalogue are net, being the store prices after the cash discount has been deducted. We quote in this way to simplify matters for our mail customers sending remittances with orders.

JEWELLERY WORKSHOPS.

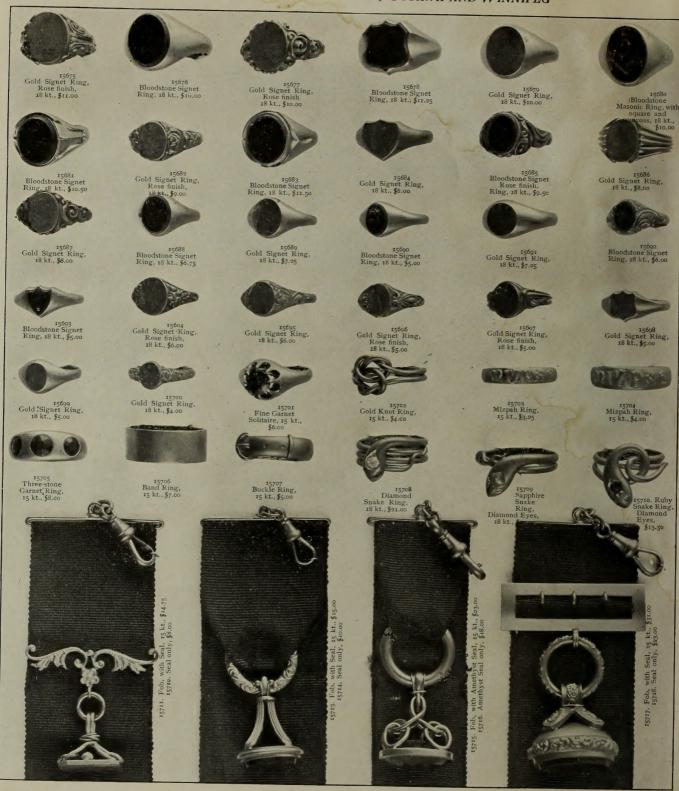

- WHEN GOODS ARE CHARGED.—Goods are charged at the store prices only, which are 10% higher than those quoted in the catalogue, and are then subject to that discount if paid within thirty days.
- ENGRAVING.—We make no additional charge for engraving single script initials or monograms on watches. An extra charge of 3 cents per letter is made for all inscriptions. For monograms, other than on watches, we make an additional charge, depending upon style and size of lettering. For styles of engraving see page 101.
- FOREIGN ORDERS.—We will send by "parcel post, registered" all orders of \$5.00 and over, and not exceeding five pounds in weight, to the following countries: Great Britain, Newfoundland, Bahamas, Jamaica, Trinidad, Bermuda, Barbadoes, New Zealand, Australia, Hawaiian Islands, British South Africa, Japan, Hong Kong and British Chinese Agencies.
- ORDERS FOR YUKON.—We prepay all parcels not exceeding five pounds in weight by "parcel post, registered," during the season of navigation.
- DELIVERY.—All orders are sent *prepaid*, except selected parcels on approval, for which we pay the return charges only. Parcels too heavy to be forwarded by mail will be sent to the nearest Express Office. We guarantee the safe delivery of every package. We send each article enclosed in a separate box.
- REPAIRING.—We make a specialty in repairing all classes of jewellery, silver and silver plate. Our charges will be found very moderate. Owing to our extensive factory facilities, we are able to offer exceptional advantages to customers in this department of our business.
- OLD GOLD AND SILVER.—We buy old gold and sterling silver. We will exchange it for new goods or send a money order for its full value. Should our valuation not be satisfactory all articles will be promptly returned.

A card for measuring size of finger will be found at back of book.

Articles are exact size of illustrations FINE DIAMOND JEWELLERY.

Diamond quality has long been an established feature of this firm's business career, their trade not only extending throughout the American Continent, but also throughout the far East and South. Birks' First-water Diamonds are superior in color, cutting and brilliancy to all others entering Canada.

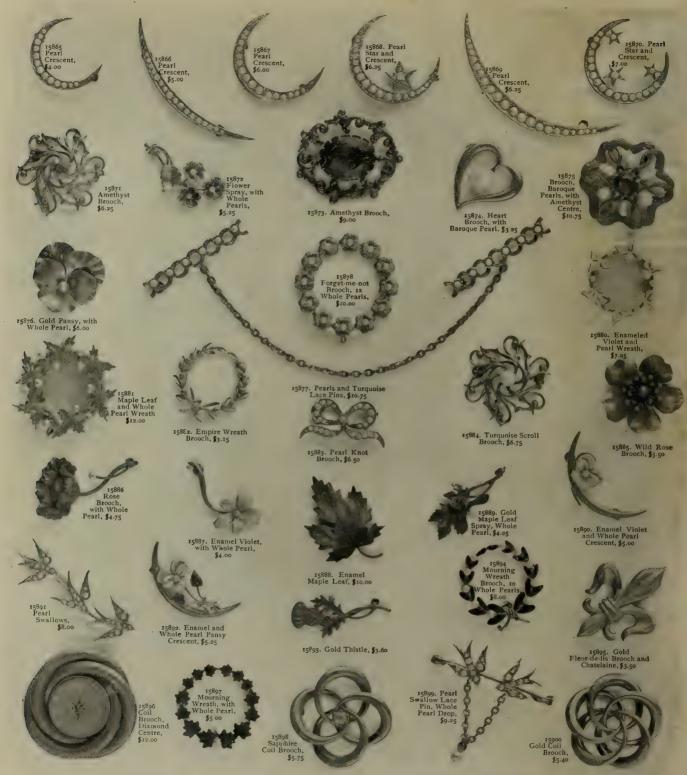

The articles are exact size of illustrations and are all 15-carat or 18-carat gold.

A handsome plush case is furnished with each piece.

FINE GEM BROOCHES AND PENDANTS.

Attention is specially called to the high grade of pearls which has long been a most important factor in the excellence of our pearl jewellery. In the selection of pearls, as in all other gems, there are many qualities to be had. We use only what are termed "Extra Orientals," being the highest quality obtainable. The lustre and color of our pearl jewellery are noteable features.

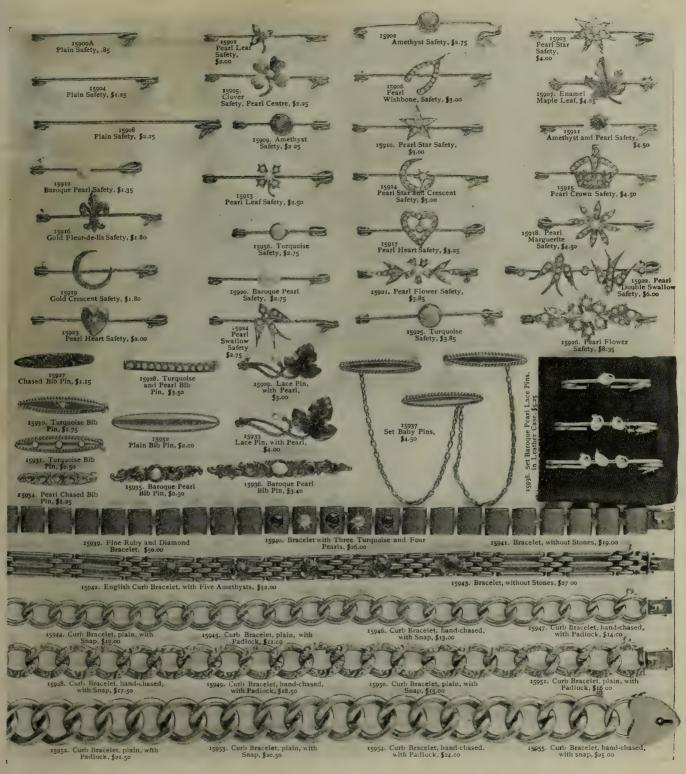

Articles are exact size of illustrations.

FINE JEWELLERY IN 14-CARAT AND 15-CARAT GOLD.

High quality of material and workmanship furnished in all their jewellery, has placed this firm's name amongst the foremost on the American continent.

Particular attention is called to the inexpensive, yet artistic, flower brooches illustrated here in both gold and enameled gold.

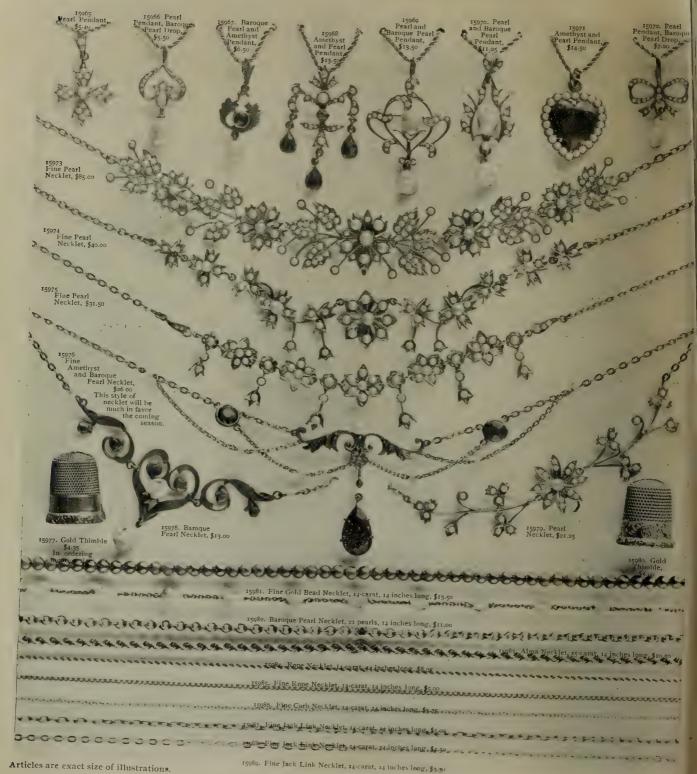

All purchases by mail, whether paid for in advance or otherwise, are on approval until received and accepted by customer.

FINE 15-CARAT GOLD BRACELETS AND SAFETY PINS.

All pins illustrated here are either solid fourteen or fifteen-carat gold. All stones are genuine and of first-water quality. Solid gold has in the jewellery trade come to mean gold of only ten-carat or even less. We desire to emphasise the fact in the manufacture of our jewellery fourteen carat is the minimum quality of gold used.

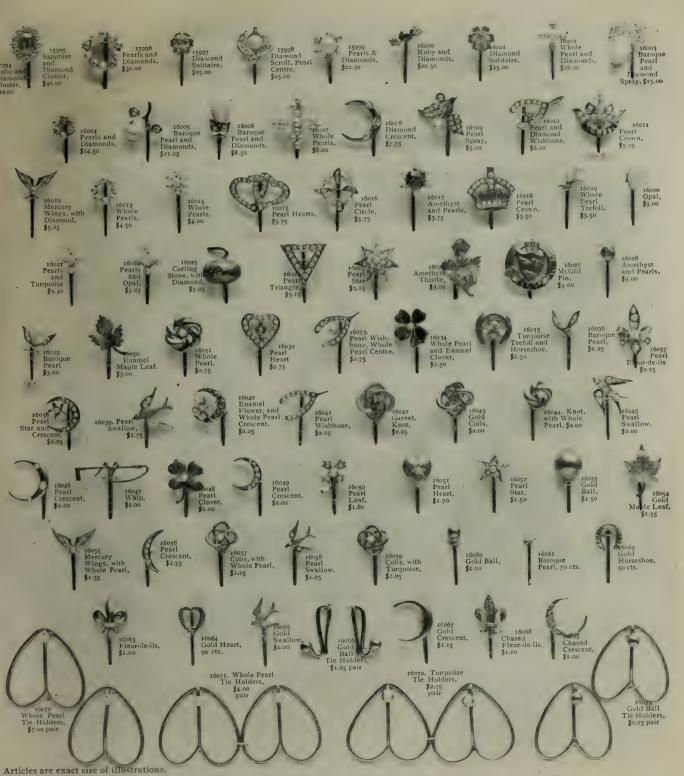

There is always a satisfaction in giving an article of the highest quality and intrinsic worth, whether it be diamond jewellery or an inexpensive trinket.

FINE NECKLETS AND PENDANTS.

Fourteen and fifteen carats.

Attention is specially called to the high grade of pearls which has long been a most important factor in the excellence of our pearl jewellery. In the selection of pearls, as in all other gems, there are many qualities to be had. We use only what are termed "Extra Orientals," being the highest quality obtainable. The lustre and color of our pearl jewellery have always been notable features.

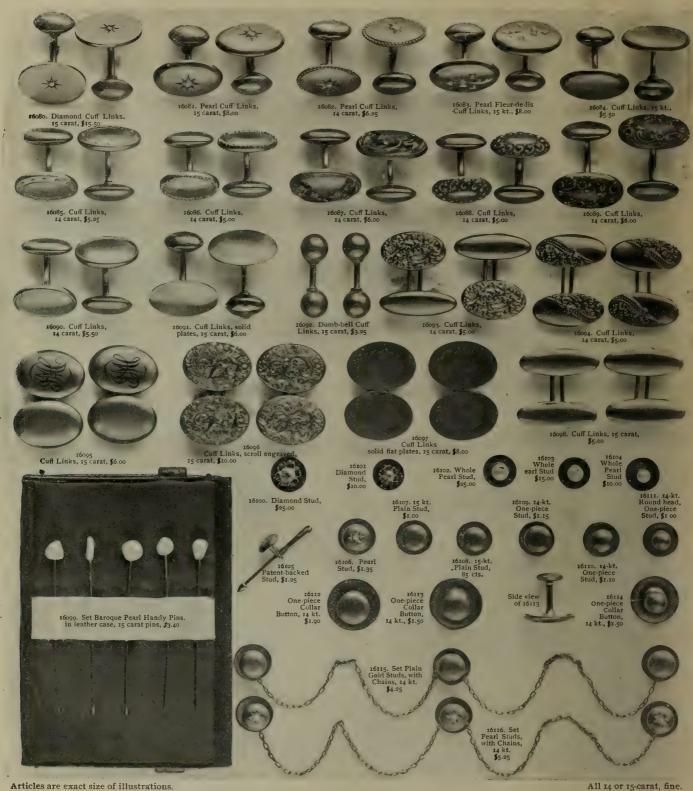

FINE 15-CARAT AND 18-CARAT GOLD SCARF PINS

All diamond mountings are 18 carat, all others 15 carat.

All stones are genuine and guaranteed first quality.

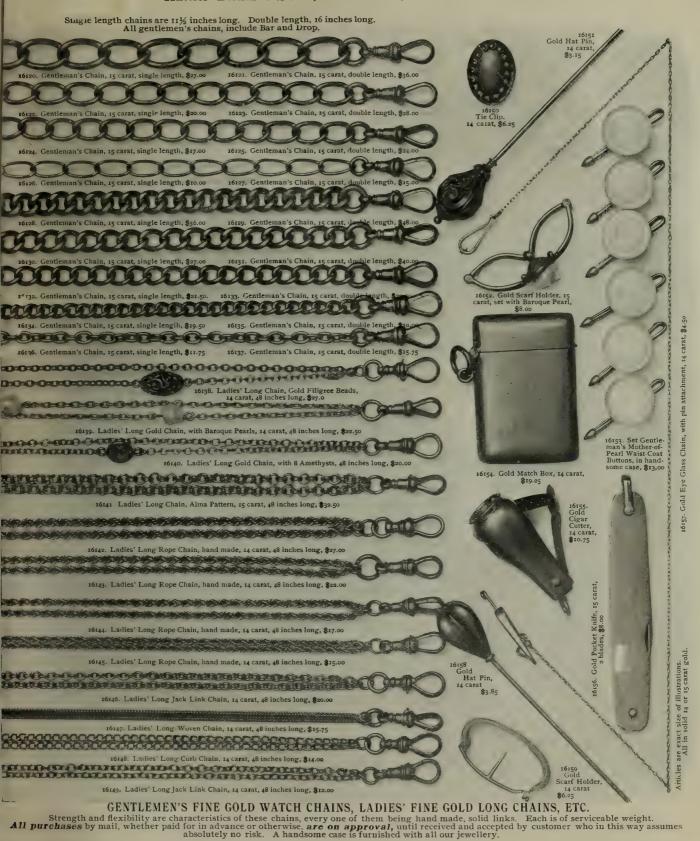

Particular attention is given to the selection and attractiveness of the boxes and cases furnished with our jewellery. Everything possible is done that articles may reach the customer in the most attractive way.

All purchases by mail, whether paid for in advance or otherwise, are on approval until received and accepted by customer.

FINE GOLD LINKS AND STUDS.

Many jewellers class so-carat jewellery as "solid gold." We make the minimum quality 14-carat in the manufacture of our jewellery; we are then certain that our pieces will give wear and satisfaction. Every piece bearing the name "Birks" is of 14-carat or finer. Our diamond settings are always made in 18-carat. A handsome case is furnished with all gold jewellery.

FINE 14-CARAT AND 15-CARAT GOLD LOCKETS AND CHARMS.

The popularity of the long chain, with locket or charm attachment, has brought forth an increased demand for such pieces as above illustrated. Each piece is of serviceable weight and substantially made. Particular attention is given to the selection and attractiveness of the boxes and cases furnished with our jewellery. Everything possible is done that articles may reach the customer in the most attractive way. Articles are exact size of illustrations.

232. Gold-filled 25-year Watch, \$25.00

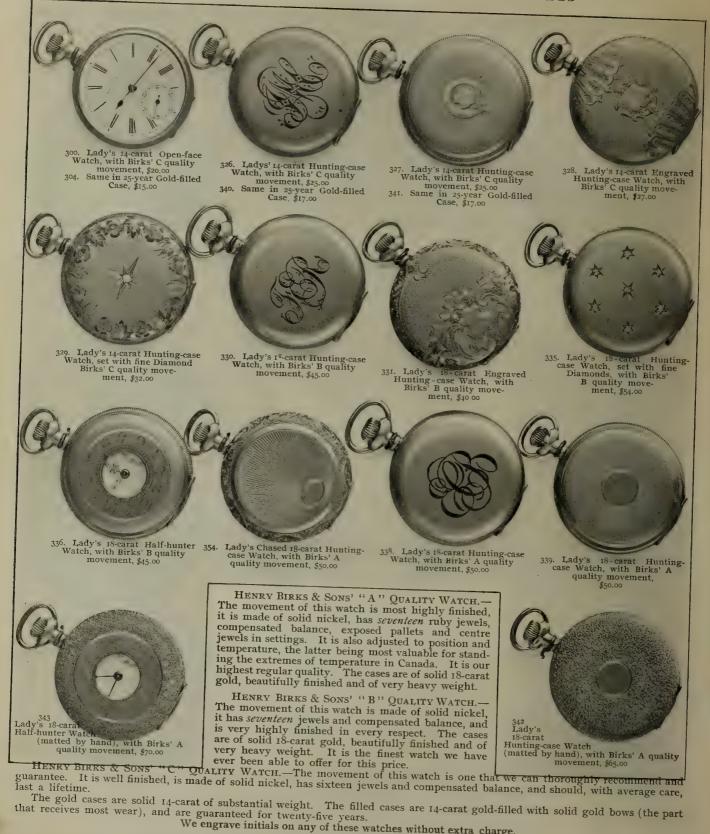

These watches have our fine 17-jewelled B quality movements.

Our filled cases are 14-carat gold-filled; with 14-carat solid gold bows, they are guaranteed for twenty-five years.

WINDING.—A watch should be wound as nearly as possible at the same time every day. If allowed to run down, the rate of performance is usually altered. No watch should be allowed to go more than two years without being cleaned, as, no matter how tight the case, the oil will have gathered enough foreign matter, in that time, to cut like a file instead of acting as a lubricant.

REGULATING.—A new watch, or one that has been recently repaired, frequently requires a slight alteration of the regulator to adjust it to the wearer's use, the rate of the performance being altered by the transfer from the workman's case to the wearer's pocket. The alteration may be made by moving the regulator towards the word "fast" (engraved on the index) when the watch is losing, or towards "slow" when gaining. This should be done next slightly at a time, and repeated if not sufficient. done very slightly at a time, and repeated if not sufficient.

WATCH REPAIRS.-We employ a competent staff of watchmakers. The many varied and complicated movements brought to us necessitate specialists who are most skilful in their respective lines of watches. We guarantee satisfactory work, and prepay return charges on all repaired watches. A wooden mailing-box will be mailed free to those desiring to send us a watch for repairs. Estimate of cost given before proceeding with work when desired.

We engrave initials on any of these watches without extra charge.

SCOTCH PEBBLE JEWELLERY.

Each piece is sterling silver.

Although these illustrations are in black and white they give a good idea of the effective contrast between the warm-tinted pebbles in the solid silver mountings. We would direct attention to an interesting piece on this page, the Scotch "Quaich," it being an exact reproduction of a drinking cup, almost universally used in ancient Scottish times; appropriate for trinklets, bon-bons or ash tray.

Articles are exact size of illustrations.

Each piece sent in a separate box.

SCOTCH PEBBLE JEWELLERY.

Note.—Articles illustrated directly above are twice the length and width of illustrations.

These articles are sterling-silver gilt upon which is placed hard enamel in the correct colors.

They make most appropriate remembrances for friends in the '' Old $\operatorname{Country.}$ ''

Each article is put in a neat box bearing the firm's name.

Articles are exact size of illustrations.

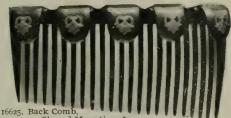

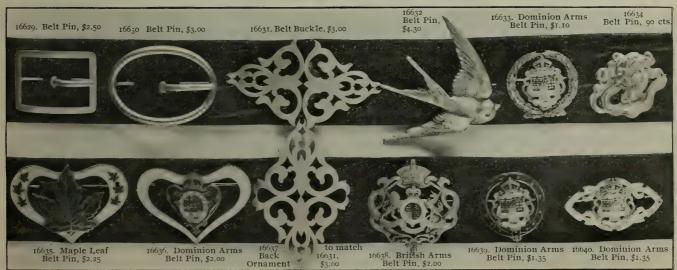

Illustrations are one-half actual size of articles.

Chased Mounting, \$4

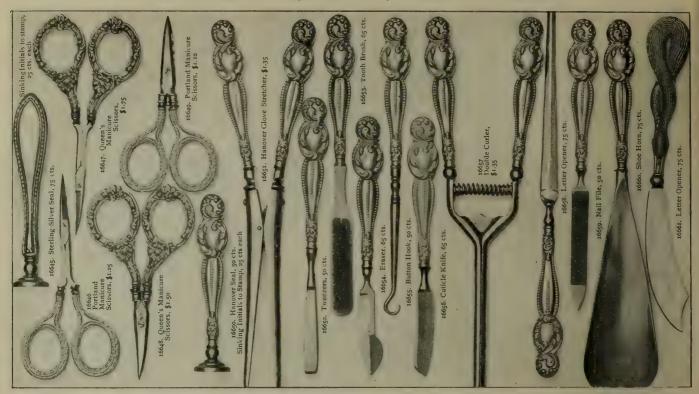

BACK COMBS AND SIDE COMBS.

Mounted combs are now much worn. We find a large demand for them at a moderate price. These shown above are the finest quality of imitation tortoise shell, with sterling-silver mounts in gold finish. They are equal in appearance in every respect to the solid gold-mounted tortoise-shell combs.

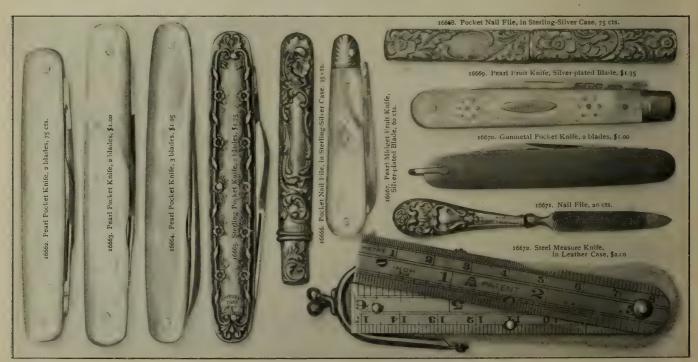

Articles are twice the length and width of illustrations

Articles are twice the length and width of illustrations.

STERLING-SILVER ARTICLES.

"LOVE'S DREAM" TOILET SET.

One of the most popular toilet sets of the day. The bold relief work of this sterling-silver design, marks it as a very superior piece of die-work. Both scrolls and figures stand out in wonderful clearness. The soft French-grey finish lends itself to this pattern with peculiar attractiveness. All pieces are of good registed and fixed with the fixed proof proof register and fixed proof proo

17070. Birks' Stereo Binocular, with Focusing Attachment, 6 Power . . . \$35.00 This glass is most suitable for general field work, hunting, yachting, etc. On account of its lightness it is equally suitable for ladies' use.

17071. Birks' Stereo Binocular, with Focus-ing Attachment, 8 Power \$40 This is the most generally used glass for field purposes. The magnifying power is sufficient to enable one to see the number on a pilot boat sail as soon as it appears above the horizon.

17072. Birks' Stereo Binocular, with Focus-

These Stero Binocular Field Glasses represent an entirely new optical principal in field glass construction. By its construction a much larger field or view is obtained in comparison with the ordinary field glass of same power, while the size and weight of glass has been reduced. These glasses are of aluminum construction, making them very light and compact. These two principal advantages make it most necessary for the military man, yachtsman, hunter or rancher. All glasses are furnished in solid leather cases with shoulder straps.

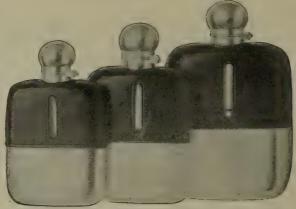

We will send any of these Glasses prepaid, upon receipt of price, to any address, with the privilege of 10 day's trial.

Money will be refunded promptly if not found to be the finest Field or Marine Glass on the market.

Glass on the market.

THE MANUFACTURE OF BIRKS' SILVER.

Hand Chasing.

HAND-WROUGHT SILVER.

With a corps of skilled artists to design and execute their work, the facilities of Henry Birks & Sons for the production of finely Hand-Wrought Silver are possessed by no other concern in the country.

From the melting pot to the finished article every facility for the modern manufacture of sterling silverware is used to the best advantage.

From the dainty dish to the elaborate bowl the same care of execution is given which has long made their work distinctive in character.

Each article has that fine finish

FAMILY PATTERNS IN TABLE SILVER.

The pleasing old English custom of establishing a family pattern, to be gradually completed by adding to the collection from time to time, is again rapidly coming into favor.

in every detail so lacking in much of the silver on the market.

The low price of Silver Bullion makes the present time a most important one for the selection of a family pattern.

The purchase of a spoon or fork from time to time soon leads to a well established set, which, when once completed, will be always in keeping with the best traditions of the many old chests of silver handed down from generation to generation as heirlooms.

DESIGNS.

The utmost care is required in the selection of a family pattern of Silver to avoid choosing a design which will in time be out of style and thus not harmonize with its surroundings. Simplicity of design, and gracefulness of outline which have been the chief characteristics of Birks' Silver, will always insure its being as much in harmony with the well appointed dinner table a generation hence as it is to-day.

A Section of Workshops

WEIGHTS OF TABLE SILVER.

Much is to be avoided in the purchase of Silverware of light weight. In the manufacture of a light weight spoon or fork, strength and durability must be sacrificed. Birks' Silver is made only in weights which will guarantee strength, and where the lasting qualities are unquestioned.

Three Stages in the Making of a Fork.

FINE STERLING SILVERWARE

AT MANUFACTURERS' PRICES.

NEW QUEEN'S PATTERN

We desire to call special attention to this pattern of solid silver flatware, in which the designer has followed the precise lines of the King's Pattern, but enriched the ornamentation by much deeper cutting, It surpasses in beauty of form, strength and dignity of ornament any design of similar character now before the public, and is yet sufficiently conventional to appeal to those who appreciate a rich family pattern of such robust character that it will always be in fashion. Owing to the depth of the ornamentation it can only be made in very heavy weights.

KING'S PATTERN.

Although an old pattern, the King's is one which will always be a favorite family pattern for those desiring an ornamental design. Owing to the ornamentation being of less depth than our New Queen's it may be procured in our medium weights as wellas extra heavy. By manufacturing this pattern in our own workshops, we are able to offer it at exceedingly low prices, considering the weights furnished.

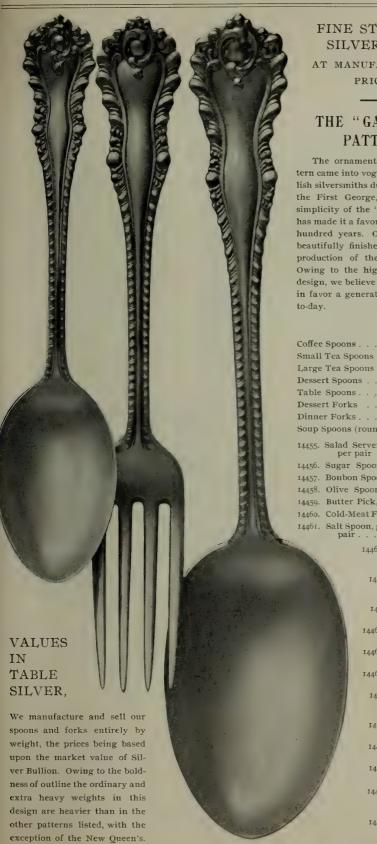

NOTE.—This pattern is called New Queen's by some dealers, but should not be confused with Henry Birks & Sons' "New Queen's."

VALUES IN TABLE SILVER.

We manufacture and sell our spoons and forks entirely by weight, the prices being based upon the market value of silver bullion. Where two weights are quoted, that listed as ordinary weight will be found about equal to the heavy weight generally sold elsewhere. Samples sent on memorandum for inspection.

FINE STERLING SILVERWARE

AT MANUFACTURERS' PRICES.

THE "GADROON" PATTERN.

The ornamentation on this pattern came into vogue among the English silversmiths during the reign of the First George, and the refined simplicity of the "Gadroon" border has made it a favorite for nearly two hundred years. Our "Gadroon" is beautifully finished and is a superb production of the die-sinker's art. Owing to the high character of its design, we believe it will be as much in favor a generation hence as it is

THE BEAD PATTERN.

Simplicity of design and graceful outline are the characteristics of this pattern of silver spoons and forks. The bead is sufficient decoration to relieve severe plainness, and the whole effect suggests dignity and refinement. It is the perfect embodiment of the ideal we aim at in all our spoon patterns, namely a design so simple and strong that it will be considered a family pattern worthy of handing down for generations.

FINE STERLING SILVERWARE

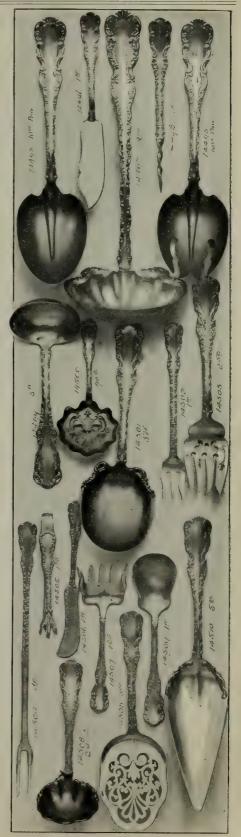

AT MANUFACTURERS' PRICES.

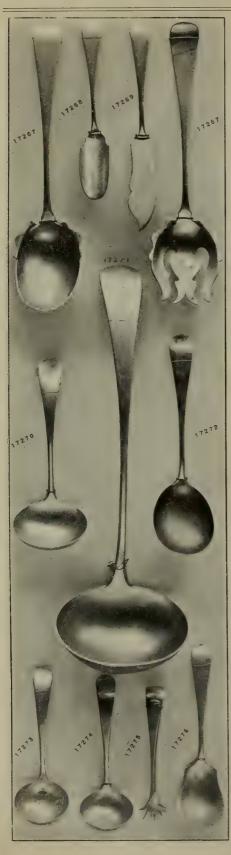

LOUIS XV. PATTERN.

This is undoubtedly the most popular moderate-priced silver pattern upon the market. In the designing of our Louis XV., we have improved the shank of the handle, giving added strength to the article where most needed. It necessitates additional weight to the article, but amply justifies any slight additional cost by its superior strength and durability.

FINE STERLING SILVERWARE

AT MANUFACTURERS' PRICES.

THE "OLD ENGLISH" PATTERN.

Our "Old English" spoons and forks have that beautiful roundness to the handle seen only in the old hand-forged English silver. This is not attempted by any other American manufacturer, and, while adding considerably to the expense of making, this is fully justified by the more graceful appearance and the increased strength of the articles.

We manufacture and sell our spoons and forks entirely by weight, the prices being based upon the market value of silver bullion. Where two weights are quoted, that listed as ordinary weight will be found about equal to the heavy weight generally sold elsewhere. Samples sent on memorandum for inspection. We engrave one script initial free of charge on our silverware.

FINE PIECES IN STERLING SILVER.

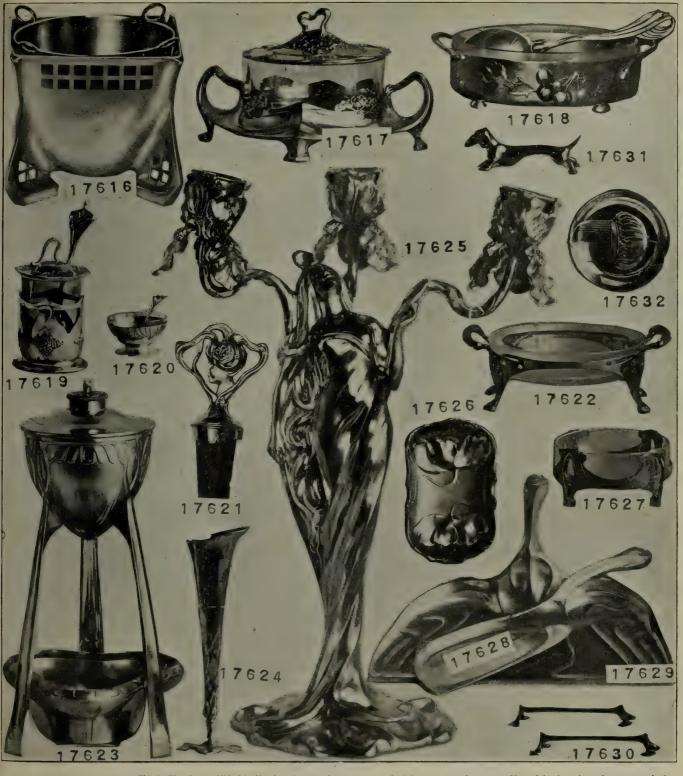

FINE WEDDING AND PRESENTATION STERLING SILVER.

These pieces are especially noteworthy because of the extremely moderate prices considering the high character of design as well as weight and finish.

The illustrations are necessarily much reduced in size, but are so carefully described below that one may safely make a satisfactory selection. Time and expense may often be saved by sending us the address and cards to be enclosed. Such orders will have the same personal attention. All goods are shipped prepaid to destination.

HAND-FORGED CUTLERY.

17594. 2 pair Nut-Cracks and 1 doz. Nut-Picks, complete in box, \$3.00

There is no steel so valuable as "double shear steel." It costs six times that of the ordinary kind, and when subjected to the process of hand-forging, it is brought to the highest state of perfection. The above cutlery is made of this perfected steel, by one of Sheffield's foremost factories.

The handles are of specially-prepared xylonite. In appearance, it is almost identical with the genuine ivory, but is superior to it, in that it will never discolor or crack. We guarantee this cuttery, and should any defects appear in the above articles, a new piece will be supplied in its place, or the purchase price will be refunded promptly. Prices include free delivery to any express office in Canada.

17512. Fine 8-day Gilt Mantel Clock, \$29.00 Case has tevelled plate-glass front, back and sides, superior movement, striking hours and half-hours on gong, mercurial pendulum, decorated porcelain dials. A clock of the highest order of workmanship and finish, and of exceptional value.

HENRY BIRKS & SONS' SILVERPLATED SPOONS AND FORKS.

In buying silverplated ware, the the first consideration is the wearing quality. Our silverplate is made in one quality only-The

The whole effect of our silverplated ware is that of sterling silver. We manufacture our own plate, know its quality and appearance are the best and hold ourselves responsible for its wearing qualities.

It costs no more to the buyer than other makes.

THE TAXABLE SERVICES TO SERVIC

FINEST HARD-METAL PLATED WARE.

Made and guaranteed by Henry Birks & Sons.

The difference between hard and soft-metal plated ware:—Soft-metal ware which is almost exclusively used by the best American makers, has for a basis varying qualities of Britannia metal or pewter. The basis of our soft-metal goods is of the finest white Britannia metal. The basis of our hard-metal ware is composed of the finest quality of nickel silver, remarkably hard and ringing. The plating is equally heavy on both, but on account of the superior hardness of the nickel-silver blank, hard-metal will outwear the same article made of soft-metal.

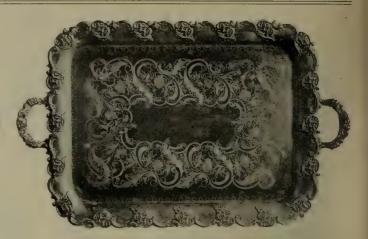

17742. Fine Silverplated Hard-metal Bread Board, with pierced edge, \$5.00. Dia. 11½ in.

"SUPERIOR-QUALITY" SILVERPLATED WARE.

Were a cheaper quality of plate applied to the articles quoted on these pages our prices would be lower accordingly. The appearance of the article would be the same, but the wearing qualities would be sacrified. Time only will test the wearing qualities of silverplated ware. A modern factory enables us to furnish a superior quality at prices to compete with inferior goods.

Articles shipped prepaid to any Express Office of the Dominion or Canadian Companies.

BIRKS' FINE CUT-GLASS.

of cut-glass there are all sorts and varieties, it requiring experience and direct comparison to discriminate between them. The illustrations on this a following page give no idea of the brilliancy, purity of color, depth of cutting or general finish of our cut-glass, which have always been the important features of cut-glass of our own manufacture. The extensive demand for our glass from coast to coast has increased our factory output over 100 per cent. In the purchase of our cut-glass we assume all risks of breakage in transit and ship all pieces prepaid to any Express Office in Canada of the Dominion or Canadian Express Companies. Eil 590.

18980. Water Bottle, capacity 1 quart, height 8½ in., \$5.00

The most important factor in the growth of any business is a well-pleased customer

EXTRACTS FROM LETTERS RECEIVED:

SHANGHAI, CHINA.

Thank you very much for the parcel which was duly received to-day. It is entirely satisfactory in every way, and very successful, I am delighted with the work. I was prevented through illness in acknowledging the order before. Kindly send the enclosed order as soon as possible, insuring it from Montreal.

Hamilton, Bermuda.

The box of silver and cutlery ordered by me was received in good time and most satisfactory condition. We were very pleased with it, and delighted with your "New Queens" pattern. The box was shown with other presents, and very much admired. I beg to thank you for the very prompt manner in which you executed the order.

WOLFVILLE, N.S.

Many thanks for fountain pen received to-day to replace broken one. It is certainly pleasing to deal with such a reputable firm as you are.

ARROW LAKE, BC.

I received the parcel of silver and gold articles which you kindly forwarded for my approval, and have made a selection which has proved very satisfactory, the buckles being greatly admired. I must say it is always a pleasure to deal with your firm, as excellent quality of goods, and kindly courtesy may always be anticipated. I regret the short delay in returning the goods, but as we are some distance from the Post Office, it makes delays necessary.
